Contents

1. Basic

1.1 Battery

♦ Only use the original battery .Never use any charger or battery that is damaged .

♦ Do not short-circuit the battery . Accidental short-circuiting can occur when a metallic object connectionof the positive(+)and negative(-)terminals of the battery.(These look like metal strips on the battery)

♦ Leaving the battery in hot or cold place , such as in a closed car in summer or winter conditions, will reduce the capacity and lifetime of the battery. Always try to keep the battery between 15℃ and 25℃ .A device with a hot or cold battery may not work temporarily , enen when the battery is fully chargerd. Battery performance is particularly limited in tempereautres well below freezing.

♦ Do not dispose of batteries in a fire as they may explode .

♦ Batteries may also explode if damaged .Dispose of batteries according to local regulations .Please recycle when possible .

♦ Do not dispose as household waste .

1.2 Care and maintenance

Your device is a product of superior design and crastsmanship and should be treated with care . The suggestions below will help you protect your warranty coverage .

♦ Keep the device dry . Precipitation, humidity and all types of liquids or moisture can contain minerals that will corrode electronic circuits . If your device does get wet , remove the battery and allow the device to dry completely before replacing it .

♦ Do not store the device in hot areas . High temperatures can shorten the life of electronic devices . damage betteries . and warp or melt cartain plastics .

♦ Do not store the device in cold areas . When the device returns to its normal temperature . moisture can form inside the device and damage electronic circuit boards .

- Do not attempt to open the device other than as instructed in this guide .
- Do not drop , knock , or shak the device . Rough handling can break internal circuit boards and fine mechanics .
- Do not use harsh chemicals , cleaning solvents, or strong detergents to clean the device .
- Do not paint the device . Paint can clog the moving parts and prevent proper operation .
- Use only the supplied or an approved replacement antenna. Unauthorized antennas , modifications , or attachments chould damage the device and many violate regulations governing radio devices .

2. Your mobile phone

2.1 Key Pad

The mobile has the following keys
